Counterpart Insight™ Project Managers
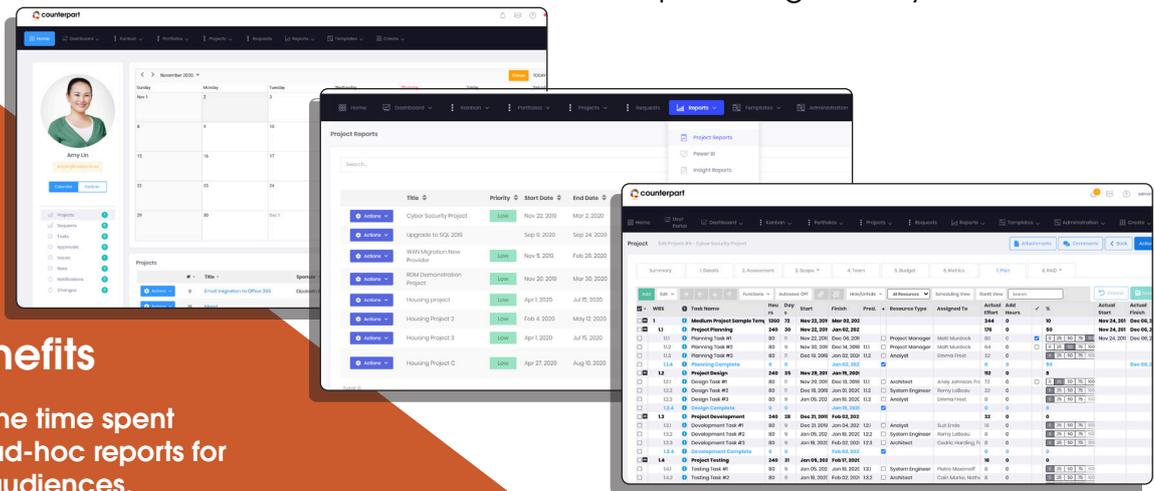

Automate and streamline recurring tasks associated with managing and reporting projects and initiatives.

Our cloud-based Work Management platform streamlines the process of creating, planning and managing projects.

Insight™ makes it easy to collect and report key metrics and KPIs for reporting, and providing visibility to executives.

Key benefits

- Recover the time spent creating ad-hoc reports for different audiences.

- Easily stay within your organisations' project governance framework.

- Streamline the process for securing project resources.

- Spend less time planning tasks and chasing resources for updates.

- Quickly capture and analyse new project ideas with Counterpart Insight's decision matrix and project sizing tools.

- Provide greater visibility for all project stakeholders, with real-time status and visibility.

- Track and report automatically on expenditure, resources, quality and time.

- Kanban boards to plan, review and manage current and future resources across initiatives.

- Share project and portfolio information through role-based dashboards.

What makes Counterpart Insight™ different?

Counterpart Insight™ offers simplicity, low implementation cost, and ease of use. We've designed Insight™ to help organisations that want a streamlined Work Management reporting solution. Offering all the project essentials: structured start-up, intuitive planning tools, rich collaboration, powerful reporting, dashboards, and customisable project workflow controls.
